ABOUT OUR SPEAKER

We are honored and excited to welcome Dr. Steven Martin to deliver the Littlejohn Family keynote address for the 17th Annual Comparative Orthopaedics Day. Original research presentations in orthopaedics will complete the full-day program. Comparative Orthopaedics Day was developed in 2001 by the University of Missouri Department of Orthopaedic Surgery to provide scientists and clinicians with a forum for presentation and discussion of orthopaedic research. The Littlejohn Family began sponsoring this event in 2009.

Our 2017 keynote speaker, Dr. Steven Martin was born in Cullowhee, North Carolina and grew up in Harrisonburg, Virginia. He went to Randolph Macon College in Virginia and graduated summa cum laude with a Bachelor of Science degree in Chemistry. He received his medical degree from the Medical College of Virginia and was selected to the Alpha Omega Alpha honor society. He completed a residency in orthopedic surgery at the Campbell Clinic in Memphis, as well as a fellowship in orthopedic trauma at the Elvis Presley Trauma Center, also in Memphis. He then served four years in the U.S. Army as director of sports medicine and orthopedic trauma at Brooke Army Medical Center in San Antonio, Texas. He is currently in practice with Blue Ridge Orthopedics in Seneca, South Carolina, a division of Greenville Hospital Department of Surgery. He is an adjunct professor in the Department of Bioengineering at Clemson University and is currently on the medical staff of Clemson University Athletics. We are thrilled to have Dr. Martin host this event.
